Alice in a Winter Wonderland

We are pleased to announce that we are now working with the Victoria & Albert Museum in London. In keeping with the Museum’s mission to inspire, we have taken a textile of Alice and Wonderland by Voysey and turned it into a Christmas story. It is all so timely, as we celebrate the 150th year since Lewis Carroll wrote Alice in Wonderland and the story will be featured in the theatre with a new production of the play. We have included the original document for you to see the inspiration that has taken us through the looking glass!

This is Clare Mackie’s first Christmas with Caspari. We saw her paintings while standing outside a famous bookstore in London. As it was evening, we had to retrace our steps the next day to discover the artist of the three paintings hanging on the wall. We found out they were done by an illustrator named Clare Mackie from the south of England. As timing is everything she was looking to find a small publishing company to publish her designs...Kismet! Clare grew up in Scotland and has illustrated for The Evening Standard, Tatler, Harvey Nichols and Chanel to name a few. We hope you enjoy her artwork, her style and her humor in the years to come.

Christmas Pomegranate

Pomegranate is one of Karen Kjærsgaard’s last paintings for Caspari. We have put it together to create a pattern reminiscent of the wallpapers of William Morris. The richness of the color in the fruit, combined with the gold background, entwine both of their styles. Karen’s library of books contained many by William Morris as his style and design captured her artist’s eye.
